

PERSONAL DEVELOPMENT, HEALTH & PHYSICAL EDUCATION

The aim of our Personal Development, Health & Physical Education (PDHPE) program is to develop socially critical and spiritually aware individuals.

We aim to develop their skills, abilities and knowledge to implement in real life situations, both at school, as well as in the future when their time at Aquinas Catholic College has concluded.

Through activities such as social dance, Royal Life Saving Society courses, interaction in team games and a challenging curriculum, we hope to foster opportunities for students to acquire leadership skills, cooperation, self-discipline, sportsmanship, knowledge and responsibility. Through guest speakers, class activities and community awareness raising, we provide an insight and better understanding of the consequences of many lifestyle decisions and expose them to the skills necessary for resilience and discernment.

Our focus on encouraging regular physical activity and provision of fitness testing, muscular activity, weight training methods, lectures in physiology, anatomy and nutrition, we promote the development of all dimensions of a student's health and well-being.

Our well-resourced department includes:

- The Wellbeing Centre – a fully equipped weights and gym facility – including spin bikes, rowing machines, elliptical, free and fixed weights
- Fitness club which includes small group training sessions
- An indoor hall with courts to accommodate basketball, volleyball, badminton and soccer
- A large grass sporting field
- Modern change facilities
- Outdoor basketball court and volleyball court.
